

## RSB Schalungstechnik

Segment formwork

1. Integrated transition piece

2. Exterior formwork with work platform and safety scaffolding

3. Interior formwork with work platform and safety scaffolding

4. "Klack" positioning system for maximum dimensional accuracy

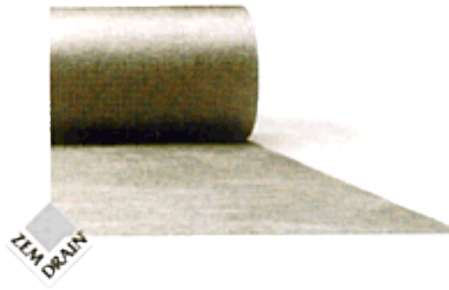

5.  
Adjustable formwork - rigid curvature of  
formwork skin (no formation of polygons)

6.  
Any water-absorbent facing material  
(AGEPAN®)

**AGEPAN**

7.  
Formwork fabric to line formwork skin  
(ZEMDRAIN®)

8.  
RSB formwork lifter shifts segment formwork  
without the use of cranes

9.  
Trough construction

**10.**  
Completed wall section with transition piece  
after stripping of formwork

**11.**
